

Edmonton Daily Bulletin.

VOL. 1.

EDMONTON, ALBERTA, SATURDAY, JULY 18 1903

No. 166

TELEGRAPHIC

Winnipeg, July 18th.
CANADA'S PROSPERITY.
There was a big increase in Canadian bank clearings.

WATER FOR WINNIPEG.
The Winnipeg water power bill has passed in the Commons.

EX-M.P. DEAD.
Mr. Jas. Innes, ex-M.P. for South Wellington, died while travelling.

DEATHS FROM EXPLOSION.
Fifteen miners were victims in the Cumberland, British Columbia, mine explosion.

THE ISLANDS WERE SEIZED.
Further particulars have been received of the seizing of British islands by the United States admiral.

MARCOONS FORGING AHEAD.
By again defeating Superior, and Fargo-defeating Grand Forks the Marcoons are well in the lead again in the Northern baseball league.

PROMINENT MANTOBIAN DEAD.
Dr. Neilson, ex-M.P.P., North Winnipeg, is dead.

WHEAT AND OATS.
Fort William wheat, No. 1 hard, spot, 1-2 cents a bushel.
Winnipeg oats, No. 2 white, 31 cents a bushel.

WEATHER PROBS.
A few light showers have occurred since yesterday morning in Eastern Manitoba, but weather in the North-West generally has been fine. The outlook at present is for fair weather in all localities, with pleasant temperatures and no very high temperatures are likely.

GRADING FOR C.N.R.
Excellent progress is being made for the grading on the Canadian Northern railway. Upwards of two hundred men are employed and a large number of teams, wheelbarrows, etc., called into use. The work is being done in the most efficient manner, and the property has not yet been settled, but otherwise the work is practically completed and ready for the rails from the site of the F. Y. & P. station to the confines of the Great property, with the exception of one place opposite the old Hudson Bay fort. This part, where the train made the curve, from the flats adjoining the agricultural grounds, around and along the side of the port, could not be done. Teams could not work so a number of wheelbarrows were set to work with the grade through the roadbed. The grade through the road is very strong with the exception of a couple of springy places opposite the old fort. In places the grade cut through beds of gravel twenty feet deep. Various seams of coal, varying from a few inches to several feet have been cut through. Here and there tile has been laid under the grade to carry off any water that may collect at the bottom of the hill during a rain. The grading through the Great property has been stopped owing to the inspection applied for by and granted to Mr. Trethewey, of Montreal, the owner of the property. This part of the grade will afford little difficulty as the top of the bank has almost been reached. Several gangs of men are at work at different points on the line of construction. One gang has been ditching for the railway on the Hudson Bay C.N.R. station on the Hudson Bay reserve and grading for the station yard will commence immediately. The C.N.R. will get a good start on its way to Fort Saskatchewan before the snow flies.

MAIN STREET EXTENSION.
Strathcona Plumber. A contract has been let by interested property holders to Mr. Thomas Allen for the extension south through this farm, of Main street to the northern boundary of Mr. Walter's farm. From thence the road allowance will be opened west to the Calgary trail. This change will be a great advantage to farmers living south of town, who have hitherto had to follow the Calgary trail along the low lands east of McKernan's lake. The Hay lakes road will also be extended to tap the extension of Main street, thus enabling farmers from the south to get into town without passing close to the lower railway yards. The work is to be completed before the Strathcona fair, Aug. 13th and 14th, and it would be an accommodation to the public if the agricultural society would open a Main street entrance to the ground.

LOCAL

—Train left Red Deer on time.
—Manitoba elections take place Monday.

—A second, Presbyterian church will likely be erected in Calgary.

—The C. P. R. has placed operators at the Crossfield and Bowden stations.

—Wm. C. Pratt will open his new store on Jasper avenue west August 1st.

—In the town of Raymond, Southern Alberta, out of 350 property holders, only 26 are British subjects.

—An exceedingly heavy hailstorm passed over the Selkirk, Manitoba, district on Wednesday, doing a great amount of damage.

—Voting takes place Monday on the by-law to raise \$5,000 for purchasing lands for a nuisance ground and for a municipal gravel pit.

—C. W. Satter shipped a magnificent exhibit of the grains and grasses of the Edmonton district, to the Winnipeg exhibition this morning.

—Mr. A. Burke, of the Queens hotel, returned to Edmonton last night from a visit to Southern Alberta accompanied by his bride.

—The Manitoba provincial elections on Monday next are attracting a great deal of interest here. Both sides have carried on a mud-slinging campaign.

—A R. Tomlinson has accepted the position of accountant to the Vogel Meat and Packing Company, taking charge of the books of their three establishments.

—An anniversary requiem will be held in St. Joseph's church on Tuesday the 21st inst., at 8 o'clock a.m. in honor of the late Edward Rioux. All friends are invited.

—A small railing has been put in front of the general delivery wicket in the post office to cause those waiting for their mail to line up and thus facilitate the delivery of mail.

—The Bulletin credited the Strathcona baseball team with a victory over Wetaskiwin in Strathcona on Friday of last week. We were misinformed. Wetaskiwin won out by a score of 12 to 8.

—Innisfail Free Lance.—As an exhibition the Calgary fair is not up to the standard of the fairs held by many of the agricultural societies in much smaller towns. As a sporting affair it is not too bad.

—D. R. Fraser has bought the five lots adjoining his lumber yard on Namayo avenue and will enlarge his yard by the addition of these lots. Handmade offices will also soon be erected at the lumber yard.

—The C. P. R. will shortly offer a cheap rate to the lumber camps in British Columbia to induce laborers and lumbermen to go to these camps which are very short of men at present, many of them being practically idle for want of help.

—The election of Raymond's, southern Alberta, first council, was held last Saturday. The following were elected by acclamation: Mayor, Chas. McCarty, Councilors, T. Owen King, R. H. McEluffe, A. E. Moore, E. R. Hicks, F. B. Roffson and C. W. Lamb.

—Residents in the northwest part of the city complain of being greatly disturbed by dozens of cows, which congregate in that section in the early morning, making a great disturbance. The causeless stamping of dozens of cows is not very conducive to quiet slumber. People are asking how it is that the pound by-law is not enforced.

—Raymond Chronicle.—The work of shearing the 93,000 sheep in this district is now pretty well over. At the camp below Strathcona about seventy-five men have been busy gathering the sheep for the past few weeks, the total clip being in the neighborhood of 600,000 pounds. All this is being bought by Eastern buyers, the wool being baled and shipped as fast as it is clipped.

WHITE WHALE LAKE.
The mail arrangements have been changed in some respects to our advantage in others to a very decided disadvantage. Our mail courier meets the Saturday mail from Edmonton at Stony Plain post office and conveys it to Mowasin post office. There it remains till Monday when he carries it to Lake St. Anne and back to Mowasin. That ends the trip for the week. The advantage comes in our having the weekly papers from Edmonton and all points as far as Calgary, delivered the same week instead of being nearly a week old before being read. But the disadvantage is in our outgoing letters which will be in Mowasin post office from Monday to Saturday and in Stony Plain post office till Tuesday, not reaching Edmonton till Tuesday evening, a delay of eight days.

Passenger.
Mrs. Geo. Roy left this morning for Winnipeg.

F. Maroney left to attend the Winnipeg exhibition this morning.

Mrs. A. Prince was a passenger of this morning's train for Winnipeg.

C. Gallagher left Edmonton this morning to attend the Winnipeg exhibition.

Miss McNamara arrived in Edmonton last night to spend her vacation at her home here.

Mr. and Mrs. Geo. Empey, of Brockville Ont., are visiting their son, Mr. Benson, of East Stony Plain.

Rev. W. B. Chegwinn, Methodist missionary to the Peace river district, left for the scene of his new duties on Tuesday last. He will first visit Fort Vermilion and Dunvegan. He will establish missions wherever required.

BRITANNIA SUPPLY COMPANY.
Dr. H. T. Keating and Mr. C. Partman, prominent members of the British Colony of Britannia, have organized the Britannia Supply Company. They intend getting the great amount of their supplies from Edmonton wholesale houses and freighting them down the river by raft. Messrs. Keating and Partman leave this afternoon for their first raft. They are taking a large quantity of lumber, hardware, shoes, tinware, etc., with them. Several passengers are going down to the colony from Edmonton with them on this trip. The party have already taken over 100,000 lbs. of lumber from Edmonton to the colony and should feel good next week. They have stores at Fort Pitt and Lloydminster. There is every reason to believe that this trade will attain immense proportions in the near future, greatly to Edmonton's benefit.

LACROSSE MATCH.
Edmonton lacrosse club took a trip over to Strathcona last night and administered an easy defeat to the team of that town. The playing was of a very strenuous nature and was not entirely free from disputes. The teams were composed of the following players: Strathcona, Sharples, Carmichael, McKernan, R. Blain, Richards, Campbell, J. Blain, Ritchie, Grundy, Pearson, and Dunn. Edmonton, Renton, Sibbald, Bishopric, Watkins, Maroney, Morris, Drewier, Inglis, Ferris, Little and Appleby.

Chas. McDonald acted as field captain for the Edmonton boys, who found score stood 4 to 1. The return game will be played in Edmonton next week.

COMING TO EDMONTON.
Nelson News.
Three carloads of settlers' effects from Washington passed through the city yesterday accompanied by a large party of American farmers on their way to Edmonton to take up land. They had driven up from Southern Washington to Cascade City and had been under the impression that they could drive their stock and belongings to Nelson, B. C., having confused this city with Nelson, Wash. At Cascade City they had to entrain, and will go by rail to Edmonton, from which point they will strike off to secure satisfactory homesteads. None of the party had been in the Northwest before but were confident of their ability to secure good land.

Cannot Enact Sunday Laws.
Toronto July 14.—A despatch received in Toronto today announces that the Privy Council has decided against the province in the Lords Day case as to the right of the province to enact Sabbath legislation. The Privy Council has declared the act ultra vires. The appeal to the Privy Council was chiefly by the manufacturers against a decision of the court of appeals upholding that act, although the court was unanimous the late Chief Justice Armour's view is that adopted by the law lords. The effect of this judgment will be to throw off many restrictions recently imposed on Sunday labor by the big corporations the railway and the steamship companies in the province.

NEW ARRIVALS.
SINGLEFOOTER FOR SALE.
Suitable for ladies, very gentle and trustworthy, color bay, five years old, well broken to side saddle. Apply at this office.
4-166-167-pd.

LOST—\$5 REWARD.

SATURDAY, JULY 18TH, 1903.

THE WESTERN CANADA COLLEGE.

Contributed.

An institution is about to be established in Calgary that is worthy of the attention of the good citizens in this western country. It is a residential college. The college will be a great boon to the rapidly growing needs of the western half of the Northwest Territories on a really reasonable basis and at a moderate cost.

There are many ranchers in this great land that are isolated as yet and have no educational privileges. There are others who are at considerable distances from the public school in their district. To them this Western Canada College will be a great boon. It will be no less welcomed by those who desire to send away their children after they have passed through the common school in their town or section.

According to the ordinance lately passed by the Northwest Legislature incorporating the College, it is started as a joint stock company with a capital of \$50,000, five thousand shares at ten dollars each; twenty per cent, or one-fifth payable this year and the remainder in four equal annual installments. The whole stock is placed in the market. It is wholly uncommercial, though distinctly Christian. It will provide education, both primary and more advanced—commercial as well as common school—for the youth of both sexes.

It was well received by the Legislature. Indeed the members for the western half of the Territories were so confident that it would fill a long felt want in their respective constituencies, that they themselves, with but one exception, agreed to assist it by taking stock.

This college has also been submitted to the various religious denominations. It has been approved by them all as an institution that is distinctly required.

Already ten thousand dollars worth of stock has been subscribed. Calgary has taken up nearly per cent. of this amount. But more is needed, if the institution is to start on a well equipped basis.

The expense and time of travelling the great distances away from the railroad, will prevent the agent of the college from personally visiting many of the ranchers and farmers; but those that are interested in this matter, and those that are seeking a place within easy reach where they may place their children in residence and have them under constant and careful supervision, should communicate with Dr. O. MacRae, Box 134, Calgary, who is able to give full information.

To Prevent Tainted Milk.

Contributed.

The patrons of a cheese factory have a direct financial interest in supplying only good pure milk. Five francs a can or bad flavors. Thousands of dollars are lost to the country annually because patrons send to the factories tainted milk, which, if used at all, not only precludes the manufacture of first-class cheese, but diminishes the quantity of cheese per hundred pounds of milk. Some of the chief causes of tainted or gassy milk have been enumerated by the dairy division of the Dominion government as follows:—In order that patrons may be induced to guard against them, in many cases the source of trouble may be found in the unsuitable cans that go into milk during and after milking. These cans are always associated with filth in some form or other. Careful investigations show that a very large proportion of the cases of tainted or had flavors in milk and its products are caused by the germs that are always present in the droppings of animals. Such germs are to be found in large numbers wherever such droppings are deposited. The mud of stagnant ponds where cattle are allowed to drink, and the surfaces of barnyards or milking yards are always swarming with them. For this reason the cadders and bladders of cows should always be brushed before milking to remove the dried mud, particles of manure, etc., which, if left, will fall into the milk pail, contaminating the milk. While it is necessary to remove the droppings, it does not get rid of these fatal germs, which are the actual cause of the tainted, gassy milk.

Improperly cleaned milk pails, strainers and milk cans are constant sources of contamination.

The whey tank is a common source of infection at those factories where the whey is returned to the patrons in the milk cans. This practice is detrimental to successful cheese making, but when it cannot be arranged to have the whey disposed of in some other way, the tanks should be kept thoroughly clean in order to lessen the danger of contamination. They should be emptied at least once a week.

It is a well-known fact that milk will absorb some odors to which it is exposed. Warm milk will absorb odors quite as freely as that which has been cooled; hence the necessity for removing it from the stable or milking yard as soon as possible after it is drawn.

An abundant supply of pure water for the cows is one of the essentials for the production of good milk. When cows are compelled to drink the water of swamps, muddy ponds, or sluggish streams and ditches in which there is decaying animal matter, including their own droppings, there is a constant menace to their health, and unless the cows are in good health, they cannot give first-class milk. Moreover the mud, often full of foul germs, which collects on the legs, flanks and udders of the cows, and falls into the milk at the time of milking, is a direct source of infection which is often overlooked.

There is in Canada an abundance of good wholesome food available for cattle feeding purposes. The natural pastures are, on the whole, excellent, and it is only in limited districts or at certain seasons of the year that trouble is experienced with weed flavors. Among the cultivated foods, turnips and rape are two prominent exceptions to the rule of suitability which applies in general to Canadian fodder crops. While they are undoubtedly valuable in a ration for growing or dry cattle, if turnips and rape are fed, even in combination with any process known to the cheesemaker's art. Some first-class foods, when fed alone, and to excess, will cause indigestion and thus indirectly affect the milk. One example of this kind is found in green clover. In conclusion it may be said that when cows have free access to soil at all times they will give more milk, which will have a better flavor, and keep sweet longer than when they do not get any at all, or receive it only at intervals.

Our Trade with Canada

Exports from the United States to Canada in the fiscal year recently ended show a larger total than in any preceding year. The department of Commerce shows that the increase in exports to British North America has been \$12,000,000 in the eleven months of 1903 compared with the corresponding month of the preceding year, and indicates that the increase for the entire fiscal year will be something more than \$12,000,000. This is a larger increase than in any year in the history of our commerce with Canada except 1898, when the increase was slightly greater than that of the last fiscal year. Under the term, "British North America" the bureau of Statistics groups Quebec, Ontario, Manitoba and the Northwest Territory, Nova Scotia, New Brunswick and Prince Edward Island, Newfoundland and Labrador and British Columbia. The most important articles which form the exportation of \$125,000,000 to British North America are, stating them in the relative order of value, manufactures of iron and steel, coal, breadstuffs, raw cotton, manufactures of cotton, agricultural implements, chemicals, lumber and manufactures of wood.

Colony. They found that nearly 500 homestead entries had been made and the colonists are contented and happy on their new holdings. The C.N.R. people expect to start grading on their line through the Barr colony.

Rev. G. Poesgen left this morning for Winnipeg to attend the synod of the German Lutheran church for Manitoba and the Northwest Territories, meeting there. Mr. Poesgen expects to be away two Sabbaths and during his absence no service will be held in the Lutheran church here.

Messrs. Clements and Son, lately of Strathcona, but now engaged in business in Vegreville, were gratified a few days ago to ascertain that the final survey of the C. N. R. runs for a distance of three miles through a ranch they located a few months ago. They are now guessing where the townsite will be.

Miss J. Muloney, for several years first assistant to the Strathcona postmaster has resigned to accept a position in the office of the Revillon Freres' department store in Edmonton. Miss Muloney's duties in her new position will be those of a translator and interpreter of French and English in both of which languages she is thoroughly at home.

MILLET

On Friday last the Millet football team went up to Leduc to play the return match. The last match between these two teams was a draw, each side scoring one goal. But things will change and so they did. The match started in the cool of the evening. There was fast and hard work done on both sides. Millet scoring the first goal just ten seconds before half time was called. After a rest of ten minutes, play was resumed. There was some hard playing and close calls on both goals. At last Leduc found a small hole in Millet's goal and made good use of it, tying the score. As at this time there was only ten minutes left to play, every man on both sides drew a long breath and the ball passed from one to the other like lightning and from one goal to the other and finally the ball went through Leduc's goal, making the score two to one in favor of Millet. Leduc tried hard to score on Millet but was checked hard at every point of the field. The teams are very evenly matched, although Leduc did borrow one of Edmonton's men, Constable Riddick being a very good player. Everybody said that they never saw a more interesting and sport-manne game. The teams lined up as follows:—

Leduc Millet.
Goal. Millet.
B. Hardy J. A. Barrie, (Capt.) Back.
L. Blades, (Capt.) J. Blades. Right Back.
L. Chrysler J. Barker. Left Back.
F. Hardy J. Van Meter. Center Back.
J. Carrow E. Blades. Left Forward.
P. Elliott H. Blades. Right Forward.
H. Allen J. Smith. Center Forward.
G. Hardy F. Van Meter. Center Forward.
N. Tweedy W. Louse. Left Forward.
Const. Riddick A. McWilliams. McDonald. H. Worley. Referee, W. A. Manning.
Having has commenced around Millet.

Mrs. McPherson, landlady of the boarding house here has had an addition built to her house, it being too small to accommodate her boarders.

A new implement shed has been erected by F. Blades and Co.

Wm. Connolly has received a car-load of machinery, which is now for sale.

P. J. Mullen left this morning for British Columbia on a business trip. He expects to be absent about a week.

Wm. Pearce, of Edmonton, is down here buying some horses.

Miss Nellie Frothing is visiting relatives at Leduc.

Since the erection of the new store, the farmers all patronize Millet where before some of them would go to Wetaskiwin for their supplies. We have three good stores here now and they all do a brisk business.

Mr. F. Blades is about to start building an addition to his store. July 18th.

SUNNYSIDE

The Sunnyside basket picnic on the 13th was largely attended by people from all parts. Over two hundred were present, more than seventy families being represented.

The interest of the day was centered in two football matches. The first was played between the Edmonton boys and Shamrock Juniors, of New Lunnun resulting in a win for Edmonton by 1 goal to 0.

Later Sunnyside and Poplar Lake took the field and a very well contested game ensued, each side scoring one goal. A stiff breeze made it impossible for the team playing against it to score, one goal being made in each half.

From the results of the contests between these two teams for the last four years, the play appears to remain very even. The majority of the matches have been tied, and each side holds equal honors as regards wins.

A threatening sky caused the assembly to break up rather early, but gave ample warning for all to arrive home dry.

The ladies who worked so hard to make the picnic a success have the hearty thanks of the football boys, who much appreciate their kindness.

Plans, specifications, and other information may be had at the town Engineer's office. Tenders must be sealed and marked "Tenders for dwelling and shed." The right is reserved to reject any or all bids and to waive any defects.
J. ARMSTRONG, Town Engineer.

His Last Hope Realized

(From the Sentinel, Gibe, Mont.)
In the first opening of Oklahoma to settlers in 1890, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his traveling about and afterwards his camping upon his claim he encountered much bad water, which, together with the severe heat gave him a very severe diarrhoea which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed, and within an hour the patient was taking his first sound sleep for a fortnight. The little bottle worked a complete cure and he cannot help but feel grateful. The reason for bowel disorders being at hand suggests this item. For sale by all druggists.

JAS. E. WIZE

Architect.
